# 700aks

## Top and Bottom Belt Drive Adjustable King Size Case Sealer

The 700aks makes sealing large, uniform size cartons fast and precise. In fact, it's designed especially for long runs of large cartons associated with appliance, electronic, furniture and bedding industries. A unique upper and lower drive system using four belts positively conveys cases at up to 30 per minute with the 3M™ Accuglide™ II Taping Head precisely applying the full range of 3M box sealing tapes.

Standard features include compression rollers that position each box for precise tape seals, an upper tape roll bracket attached to the machine for easier tape mounting, friction brake drums to prevent tape overrun and provide more consistent tape application, an easy to reach alternative outboard tape roll mount for the lower head and easy to install laced replacement belts. Additional features are available as options.

## Footprint:

	W	L	H	A*	B	C**	F
Min inches (mm)	33.75(855)	42.5(1080)	56(1430)	18(457)	28.5(725)	4(100)	28.5(725)
Max inches (mm)	33.75(855)	42.5(1080)	87(2210)	18(457)	31(790)	4(100)	28.5(725)

\* Infeed / Exit conveyors are optional  
\*\* Caster is optional
