

3M-Matic™ Case Sealers

800r

Side Belt Drive
Random Case Sealer

Dealing with assorted case sizes can be a challenge on a production line. Whether you are sealing by hand or adjusting a sealer to handle different sizes, productivity is lost.

The 800r helps you optimise productivity. Side drive belts offer improved ability to handle narrow case widths, even those as narrow as 110mm at up to 15 cases per minute. It automatically adjusts to each case so you can seal multiple sizes with one machine without stopping for adjustments.

The 800r delivers a reliable high quality seal every time with the 3M™ Accuglide™ II Taping Head precisely applying the full range of 3M box sealing tapes.

Specifications for Box:

Regular Slotted carton (RSC)

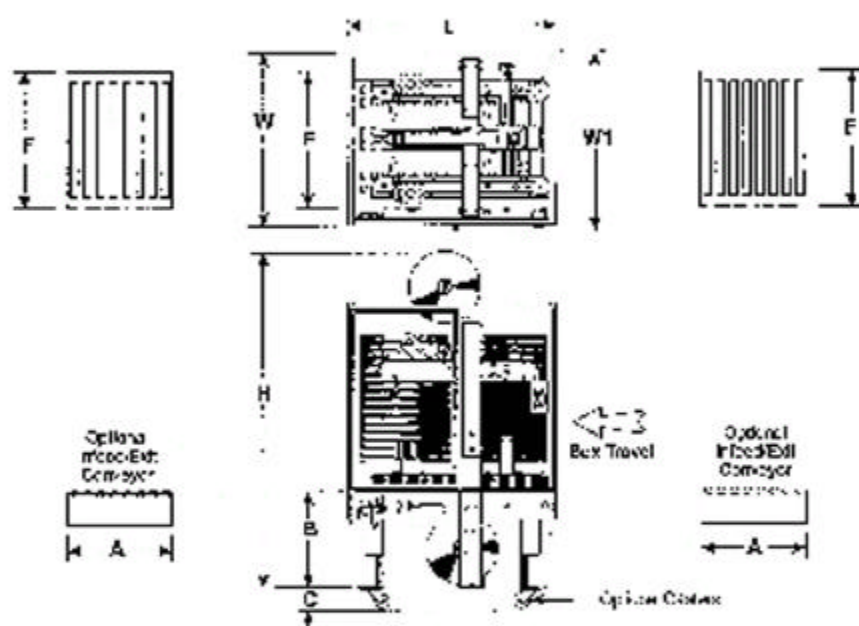

Please request a copy of our box
Specification Leaflet, TA075

Power: Electrical - 230V, 50 Hz, 1.3A, 240 watts
